AFFILIATE PARTNER PRESENTATION

A real trade history. A real community. A real reason to bring people in.

WHAT WE DO

Signals, education, and a community — built around one trading room.

01

Live Trade Signals

Every setup Darwin calls — entry, stop, and target — documented in real time, not curated after the fact.

02

Daily Education

Live sessions multiple times a week, a full recording archive, and a structured curriculum from beginner to advanced.

03

Private Community

A trading room where members watch the calls happen live, ask questions, and learn from every winning — and losing — trade.

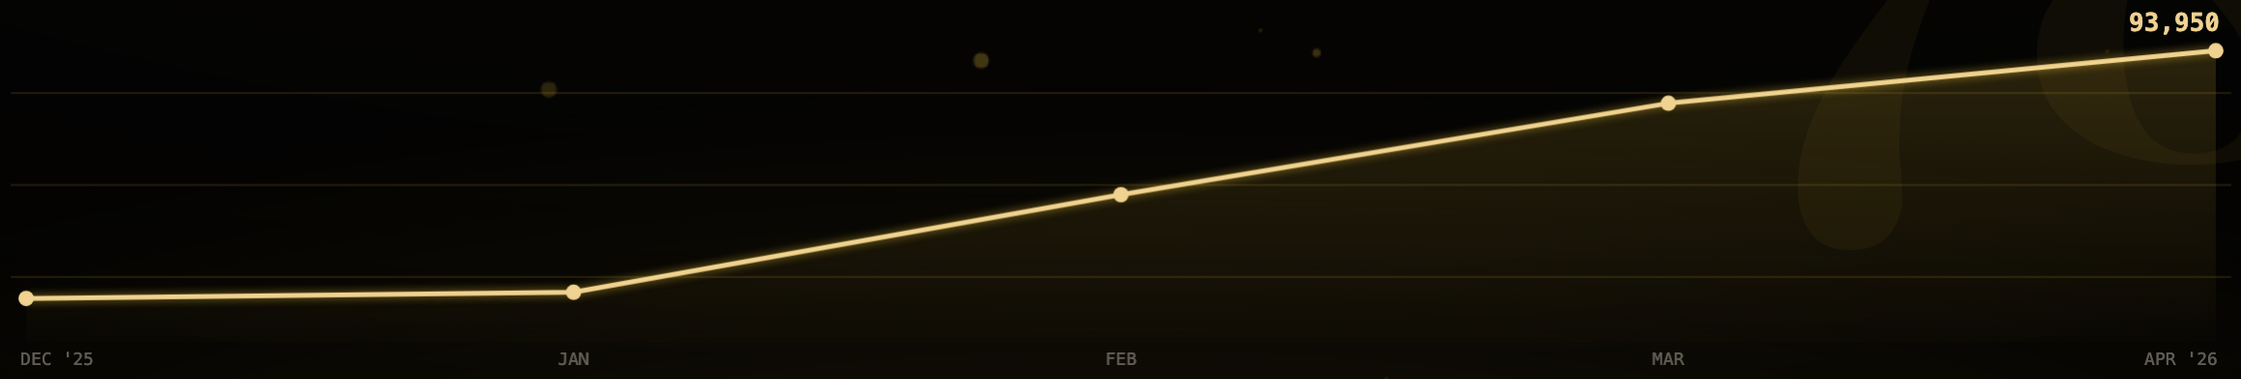

THE TRACK RECORD

Every signal logged. Nothing cherry-picked.

WHAT IT COULD MEAN

What would your account look like?

Compounded from the real entry, stop, and exit price recorded on every one of the 78 trades in the log — not an assumed win rate or reward ratio. Shown at 1% and 2% of the account risked per trade, the two most common position-sizing conventions.

THE SAME TRADES, BY POSITION SIZE

Or, sized in real lots.

The 93,950 real pips from the log, converted at this desk's own $0.10-per-pip gold convention and a fixed lot size per account tier — micro, mini, and standard. No compounding, no assumed stop distance: just pips × lot value, added once to the starting balance.

AFFILIATE PROGRAM

Refer traders. Earn for life.

Every active membership you refer pays you **50% recurring commission** — for as long as they stay a member.

WHAT THAT LOOKS LIKE

1 REFERRAL

$75

every 28 days, recurring

10 REFERRALS

$750

every 28 days, recurring

50 REFERRALS

$3,750

every 28 days, recurring

Based on $150 every 28 days per active member at 50% commission. Referral totals are illustrative math, not a guarantee.

NEW — TWO-TIER PAYOUT

Your 50% just got a second engine.

Keep earning 50% on your referrals. Now recruit affiliates — and earn 25% on every sale they make, forever.

TIER 1 — YOUR REFERRALS

50%

$100 on the $200 join, then $75 every 28 days per active referral. Same rate as always — untouched.

TIER 2 — YOUR TEAM'S REFERRALS

25%

$50 per join, $37.50 every 28 days per active member your recruits keep. One recruit holding 10 actives = $375/cycle to you — without selling a thing.

01 Recruit once, get paid every cycle

A recruit keeps paying you overrides as long as their referrals stay active.

02 Income beyond your hours

Ten recruits selling is ten of you. Your book grows while you sleep.

03 Stacks on your 50%

Nothing was taken from Tier 1 — the override is new money on top.

THE MATH 10 direct actives = $750/cycle + 4 recruits × 5 actives = $750 more · grow the team to 10 × 10 and the override alone is $3,750/cycle.

Figures before payment-processing fees; actual payouts vary slightly by payment method. Tier 2 applies to sales made by affiliates you recruited.

THE REWARD LADDER

The more you refer, the bigger it gets.

Active customers, sustained 3 months

100	Apple Laptop
150	YSBT Pendant — 14k Gold
200	Flight to Tulum
250	Rolex
500	Brand New Car
1,000	Private Jet Flight with Darwin Lopez
